64 PART NUMBERS

Care and Protection

Always show the best side.

The Levante is sure to leave its mark along the road it travels: Maserati quality and reliability make it ready to face any conditions. To preserve the style and efficiency of each vehicle element, it is necessary to follow just a few tips using the solutions available in the Accessories range.

Indoor Car Cover

The Indoor Car Cover, specially-designed for the Levante, traces the muscular lines of the car body, enveloping and protecting it to perfection. Made-to-measure using a quality anti-laddering Maserati blue fabric, the cover is finished with contrasting light-grey details which further bring out the distinctiveness of the vehicle lines.

Outdoor Car Cover

The Outdoor Car Cover optimally protects the vehicle against dust, scratches and the effects of the weather. The use of high-performance fabric makes the cover waterproof, breathable and stretchable: this eliminates the wind effects

and provides a perfect fit under any conditions. The cover comes in a light-grey colour and is branded with Maserati blue details which highlight the muscular lines of the car.

Protective Film for Loading Edge

Designed to provide the best protection, the Protective Film for the Loading Edge is the ideal solution for preserving the precious bodywork of the vehicle, keeping its aesthetics unaltered over time. The film is applied to the rear bumper to protect the area mainly exposed to possible scrapes and damage caused by suitcases and various objects that may hit the luggage compartment while loading and unloading. The shaped film is transparent, so that the colour of the bodywork is not altered, and does not get yellow over time. After removal, it does not leave any residues on the application surface.

Side Protective Films

The Side Protection Kit comprises a film which provides optimal protection of the car body in areas where impacts from gravel and other external agents are most likely to occur. The film is made of transparent urethane which does not change the colour of the bodywork and does not turn yellow over time. The film is moulded and covers the side panels of the vehicle with absolute precision. It is simple and quick to apply using a water-based solution, which does not leave any adhesive residue on the application surfaces when it is removed.

Battery Charger & Conditioner

A compact and user friendly device, the Battery Charger and Conditioner keeps the charge level of your car battery always in optimal condition, between 95 and 100%, and charges it when required. The device does not need to be programmed: just connect the car battery to a standard power socket, and you may leave it connected for several months without any risk of damage to the vehicle.

Car Care Kit

The quality materials that are used in the interior and the smart details of the Levante exterior require specific products for the best possible protection. The Car Care Kit comes in a smart and practical transparent case with leather details. All the products are tested and approved by Maserati's laboratories and are part of the "Kyoto Friendly" line, making them a perfect balance between quality and respect for the environment.

The kit consists of the following products:

- Shampoo Auto
- Insect Remover
- Tyre Black
- Wheel Rim Treatment
- Window Cleaner
- Plastic Cleaner
- Leather Cleaner and Reviver
- Delicate Fabric Detergent

Transport and Loading Solutions

Each journey will be unique.

Practical and functional transport systems which are perfectly integrated within the Levante's design allowing you to take whatever you need on your journey to fulfil your passions and hobbies. Because often, when one journey ends another more emotional one starts.

Roof Rails

The Roof Rails, which perfectly follow the lines of the bodywork, are the basic element for using many transport solutions available in the Accessories range.

Roof Cross Bars

Roof Cross Bars are an essential element for installing the right equipment for trips and sports outings, with a low profile which stays close to the car roof. Roof Box, Roof Mounted Ski & Snowboard Carrier, Roof Mounted Bicycle Carrier and Roof Mounted Surfboard Carrier. The use of aeronautical technologies and wind tunnel testing has reduced aerodynamic noise and drag force to a minimum. The bars are made of aluminium and the rail anchoring system is fast and simple.

Roof Box

Comfort and well-being have always gone hand in hand with class and style on-board a Maserati. A prerequisite that also holds for the countless loading solutions available for the Levante, such as the spacious Roof Box, which features a sleek design optimised to blend style and space. Lightweight and aerodynamic, the box boasts a volume of 410 litres, dramatically increasing the loading capacity of the vehicle. The box has a double opening system which simplifies loading and unloading under any conditions.

Roof Box Lift & Load System

The Roof Box Lift & Load System is a very practical and versatile system for quickly installing and removing the box. The system actually enables the box to be easily lifted from the car roof and secured to the garage ceiling, so that it can be quickly installed when required.

Roof Mounted Bicycle Carrier

The Roof Mounted Bicycle Carrier can be attached to the roof bars, and is extremely practical and lightweight, enabling a bike to be transported quickly and safely, without any risk of damaging the car or the equipment. The special system design keeps the bike in position through three locking devices: one on the frame, equipped with a padded clamp, and two on the wheels, with an adjustable diagonal quick-release strap.

Towbar Mounted Bike Carrier

The Towbar Mounted Bike Carrier is the ideal solution for everyday transport of up to 3 bikes: compact, lightweight and easy to use, the system is securely fastened to the towbar hook by means of a practical handle. A convenient pedal-operated mechanism enables the bikes to be tilted for easy access to the luggage compartment, even when being transported. It is equipped with a double lock to secure the towbar system and bikes to the support.

Roof Mounted Surfboard Carrier

The Roof Mounted Surfboard Carrier is used to attach a board and two masts to the roof cross bars. Strong straps are used to secure the board and the padded protections allow the board to be transported without any risk of damage.

Roof Mounted Ski & Snowboard Carrier

The Roof Mounted Ski & Snowboard Carrier makes loading and unloading easy, and does not force you to stretch to reach the top of the roof, letting you slide the equipment towards the outside. Opening is made easy thanks to large buttons, which can even be operated while wearing gloves, whereas the surface of the bars is padded to avoid damage to the equipment. Made of aluminium and featuring an aerodynamic design, the system can carry up to 6 pairs of skis or 4 snowboards, and is equipped with a lock.

Ski and Snowboard Bag

The Maserati Ski/Snowboard Bag allows the load capacity of the Levante to be fully exploited, since three pairs of skis, or a pair of skis and a snowboard may be easily and safely carried. The bag, which can be extended by 30 cm based on the user needs, is loaded through the luggage compartment and rests on the back of the rear seats, folded down for the purpose. The back of the bag is fastened to a special anchoring point in the luggage compartment (or to the anchors on the optional rails) and the front is attached to the back of the rear seat by means of a sturdy strap.

Tow Hook

An essential element for this type of vehicle, the Tow Hook made for the Levante is the ideal solution to meet a wide variety of towing and transport needs (for fitting the Tow Hook, the vehicle must be equipped with Skid Plate Kit).

Skid Plate Kit

Developed to protect the bodywork, the front and rear Skid Plates translate into a clear stylish element that perfectly blends with the design of the vehicle and that strongly emphasises its look with an even more dynamic character.

Towing Mirror Extension

The Towing Mirror Extension perfectly integrate with the design of the vehicle. The kit includes two mirrors that can be easily attached to the wing mirrors.

Luggage Compartment Foldable Box

Characterised by a stylish Maserati design, this Collapsible Box is the ideal solution for keeping small and medium-sized objects tidy, and to avoid losing anything inside the car boot. The box can be easily secured using the Velcro strip on its base and rear, meanwhile, when it has been collapsed it can also be used outside the car as a stylish and convenient briefcase with a front pocket to carry documents, a tablet, etc.

Luggage Compartment Mat

The Luggage Compartment Mat, developed in washable and highly resistant, impermeable material, protects the luggage compartment floor from any type of soiling (mud, oil, sand, water and snow). The mat, made of recyclable thermoplastic material, has been designed to cover the luggage compartment floor and leave the anchors and rails (optional) uncovered. It is enriched with branding and elements recalling the style of the vehicle.

Luggage Compartment Net

The stability of the items in the luggage compartment when travelling is fundamental for safe and relaxed driving. The Luggage Compartment Net is a simple and very effective accessory which, thanks to its double layer, enables small and medium-sized objects to be secured. The net is fastened using four hooks located in the corners of the luggage compartment floor, or via eyelets in the rails on the luggage compartment floor (optional).

Luggage Compartment Adaptive Divider

The Luggage Compartment Adaptive Divider, comprising a rigid telescopic frame, allows the luggage compartment to be flexibly divided, so as to organise the space available effectively and to prevent objects within the luggage compartment from moving. The system is easily secured to the rails of the luggage compartment floor (optional), along which it can slide as desired, and comes with strong securing straps with a quick-release mechanism.

Luggage Compartment Rails

The Luggage Compartment Rails of the Levante may be equipped with special Rails to organise the luggage compartment and the luggage in the best possible way. The two anchoring metal guides are provided with four eyelets with adjustable stop system, that will allow you to divide and organise the space available and easily lock the items loaded.

Comfort and Communication

Helping you relax.

Those able to reach the highest peaks are not used to staying within limits: Maserati Levante accompanies you on a discovery of new horizons from every angle, thanks to the special accessories that will allow you to enjoy your communication and entertainment devices and to increase the comfort of any little ones travelling with you.

iPad Holder for 4th Generation iPad

The iPad 4 Holder offers another way for those travelling within the comfortable interior of the Levante to relax, enabling them to use all the functions of their device in complete comfort. Thanks to the mounting bracket which can be easily fitted to the front seat headrest, the iPad Holder is simple and quick to fit and remove. It can be adjusted to different positions, thus making reading, watching a film or using online means of communication easier. The infrared function allows the device to be connected to wireless headphones (not included), while the charger enables the iPad to be charged during long trips using the 12V socket in the car.

Child Seats

To ensure the safety of child passengers, Maserati and Peg Pèrego have developed three exclusive Child Seats. Complying with the regulations that classify child restraint systems according to the weight of the child, the Maserati range comprises three different car seats: Group 0+ (from 0 to 13 kg), Group 1 (from 9 to 18 kg), Group 2/3 (from 15 to 36 kg). Each child seat has undergone all required safety tests and is type-approved according to the European ECE R44/04 standard. Group 0+ and Group 1 can easily be attached to the same ISOFIX base (available separately). Group 2/3 is quick and simple to fasten to the seat using the car seat belt. The child seats are upholstered in a mix of dark-grey fabric and black eco-leather with light-grey stitching and are customised with the Maserati logos.

The Child Seats are available for the following Countries: Albania, Algeria, Argentina, Austria, Belarus, Belgium, Bolivia, Bosnia-Herzegovina, Bulgaria, Chile, Colombia, Costa Rica, Croatia, Cyprus, Czech Republic, Denmark, Dominican Republic, Ecuador, Estonia, Finland, France, French Guiana, Germany, Great Britain, Greece, Guadeloupe, Honduras, Hong Kong, Hungary, India, Iran, Ireland, Italy, Japan, Kazakhstan, Kosovo, Latvia, Lebanon, Libia, Lithuania, Luxembourg, Macedonia, Malaysia, Malta, Mexico, Montenegro, Netherlands, Norway, Panama, Paraguay, Perú, Philippines, Poland, Polinesia, Portugal, Qatar, Reunion, Romania, Russia, San Marino, Saudi Arabia, Serbia, Singapore, Slovakia, Slovenia, South Africa, Spain, Sweden, Switzerland, Syria, Turkey, UAE, Ukraine, Uruguay, Uzbekistan, Venezuela.

The Push Chair is available for the following Countries: the same countries as Child Seats with the following exception: addition of Brazil and deletion of Estonia.

Pushchair

A practical and compact Maserati-Peg Pèrego Pushchair is also available for the Levante. Collapsible and easy to transport in the luggage compartment, it is compatible with Group 0+ child seats; in fact, using to the two latches underneath the child seat, a Group 0+ seat can be easily attached directly to the pushchair. Featuring smart Maserati branding, the pushchair comes complete with sun canopy, rain cover and cup holder, and is equipped with a large basket to hold everything you need.

Safety

Tranquillity without borders.

On-board the Levante, the pleasure of travelling goes hand in hand with the excitement of discovering new destinations, being fully aware of always being protected from any risk. The extraordinary safety features of the vehicle are complemented by specially-designed accessories that strengthen this feeling, making things easier in the event of problems or emergencies.

Emergency Kit

The Emergency Kit helps you calmly deal with any unexpected situations during your trip. It comes in a smart case that fits perfectly into the recess on the left-hand side of the luggage compartment.

The kit consists of the following items*:

- Safety Triangle
- Reflective Vest
- Lightsticks
- Wind-Up Torch
- First-Aid Kit
- Gloves
- Ice Scraper

*The items in the kit may vary from country to country.

Jumper Cables

When required, the Jumper Cables ensure safe and easy connection to the battery, allowing you to always travel with complete peace of mind. The Jumper Cables come in a practical case embossed with the Maserati logo and shaped to comfortably fit into the luggage compartment.

Tyres and Wheels

To always leave your mark.

Tyres play an essential role for attaining the high driving standards of Maserati, always focused on safety, performance and comfort. Special accessories have been designed and dedicated to wheels and tyres, to increase their functionality and at the same time emphasise the unmistakable style of the Trident.

Maserati Genuine Tyres (MGT)

The summer, winter and four season tyres for the Levante have been developed with the aim of providing optimal control and precision while driving. The special Levante tyres are identified by the "MGT" (Maserati Genuine Tyres) marking, which stands for best comfort, safety and long-life on dry as well as wet road surfaces.

Complete Wheels

The Complete Wheels comprise Genuine Maserati Wheel Rims and MGT Tyres. All the wheels and rims come already balanced, ready to be fitted to the vehicle and equipped with the special wheel hubcaps and TPMS sensors. Aesthetically appealing, the Maserati Complete Wheels bring out the best in the blend of technology and design. They are available in different sizes and designs, to enhance the sporty and/or stylish character of your vehicle.

Branded Valve Caps

Made of lightweight, rustproof and weatherproof material, the Branded Valve Caps bring out the distinctiveness of the car wheel rims through the stylish embossed Trident on the cap.

Security Stud Bolt Kit

The special Security Stud Bolts, specially designed for the Levante, make the vehicle more secure against the risk of wheel rim theft, as the wheels may be fitted and removed only using the special wrench provided in the kit. The stud head features a special design that combines an appealing look with the greatest functionality.
